Subject: 100% in support of creating a commission

We are 100% in support of creating a commission in regards to a possible historic or conservation district for the town of zionsville.

To us, it seems like a no-brainer and we were shocked and to be honest, somewhat appalled when we moved here two and a half years ago that no sort of preservation district designation existed.

If we do not implement something soon, all of the charm is going to be torn down and modern non streetscape appropriate buildings will be put in their place that we are seeing already now.

Thank you for considering and supporting such a designation in our beautiful town.

Sincerely,

Michael and Tracy Sechrest
